

Roopu Cloud is an official Alibaba Cloud Training partner

Description

The "ACT81002 Alibaba Cloud Basic Products" course is intended to provide an overall understanding of cloud computing concepts, independent of specific technical roles. It provides a detailed overview of cloud concepts and Alibaba Cloud core services including, OSS, SLB, and RDS.

Intended Audience

The course is intended for Developers, Technical Operators, Solution Architects and Engineers.

Prerequisites

This is an entry-level course, but it assumes the following:

- General IT technical knowledge
- General IT business knowledge

Delivery Method

This training is delivered by an official Alibaba Cloud instructor.

Hands-On Activity

This course includes hands-on labs led by experienced instructors to help you obtain direct hands-on experience on those products' configuration and operations.

Certification

This course covers all topics and prepares you for the Alibaba Cloud Associate (ACA) in Cloud Computing certification exam.

Duration

Approximately 7 hours.
