

**Roopu Cloud is an official Alibaba Cloud Training partner**

### Description

The "ACT83001 Alibaba Cloud Security Solutions" course is intended to provide an overall understanding of cloud security concepts. It provides a detailed overview of cloud security concepts and Alibaba Cloud security core services including KMS, SSL, Security Center, Anti-DDoS, WAF, Web Threat Inspector, and more security products.

### Intended Audience

The course is intended for IT Security Specialists, Security Operators, Security Architects and Security Engineers.

### Prerequisites

This course requires a strong foundation in IT concepts and skills. To ensure success, you should have:

- Complete the Alibaba Cloud ACT81002 Basic Products course or have equivalent experience
- Familiarity with IT security and security solutions
- Working knowledge on Alibaba Cloud

### Delivery Method

This training is delivered by an official Alibaba Cloud instructor.

### Hands-On Activity

This course includes hands-on labs led by experienced instructors to help you obtain direct hands-on experience on those products' configuration and operations.

### Certification

This course covers all topics and prepares you for the Alibaba Cloud Professional (ACP) in Cloud Security certification exam.

### Duration

Approximately 7 hours.
