

Roopu Cloud is an official Alibaba Cloud Training partner

Description

The "ACT87002 Alibaba Cloud IT Governance" course is intended to provide an overall understanding of IT Governance concepts. It provides a detailed overview of account management, resource management, network design, security compliance, cost control, and automated O&M.

Intended Audience

The course is intended for IT Operators, Solutions Architects and IT Managers.

Prerequisites

This course requires a strong foundation in IT concepts and skills. To ensure success, you should have:

- Complete the Alibaba Cloud ACT81002 Basic Products course or have equivalent experience
- Familiarity with IT and cloud solutions

Delivery Method

This training is delivered by an official Alibaba Cloud instructor.

Hands-On Activity

This course includes hands-on labs led by experienced instructors to help you obtain direct hands-on experience on those products' configuration and operations.

Duration

Approximately 7 hours.
